To whom it may concern:

**Canadian Council of Imams' Endorsement
of *The Clear Quran* by Dr. Mustafa Khattab**

The Quran is unique in its Arabic style and depth of meaning, making it very challenging to translate into other languages. Now that Islam is being scrutinized the world over, there is a dire need to present the Quranic message in various languages—especially English—in ways that reflect the beauty, compassion, and universality of Islam.

Dr. Khattab's ground-breaking work, which is noted for clarity, eloquence, and flow, makes the Quran more accessible than ever. I personally like the thematic classification of verses based on their meaning for better understanding of chapters. *The Clear Quran* is a must-read for Muslims and non-Muslims who aspire to connect with God's final revelation to humanity.

I'm confident that this translation will be well received and recognized as a scholarly and timely work.
